

CV

Dr. Gerald Rebitzer
Manager Product Stewardship, Alcan

Gerald Rebitzer is responsible for Product Stewardship within Alcan Packaging and Alcan Engineered Products. He holds a Ph.D. in Life Cycle Management from the Swiss Federal Institute of Technology Lausanne. Besides his Alcan internal tasks, which focus on the implementation of Product Stewardship in Alcan's business processes and leveraging sustainability in cooperation with customers, he is chairman of the Product Stewardship WG of the European Aluminium Association, editor for The International Journal of Life Cycle Assessment, lecturer at the ETH Zurich, reviewer for the European Commission, and leading related work in SETAC and UNEP/SETAC as well as the WBCSD, among other activities.
